

Top 200 Skyscrapers Worldwide

Welcome to the Skyscrapers.com Top 200 skyscrapers listing. This page holds the official World's tallest 200 high-rise buildings and is the most accurate compilation of its kind worldwide. The data is collected and verified by the SDC and is updated continuously. It includes high-rise buildings which have been topped out, including those still under construction or on hold. The ranking is based entirely on the buildings' structural height. TV towers, masts, and other building types are not included.

#	Building	City	Height	Floors	Year
